Thursday	Lesson at Science Museum	London walking tour
Friday	Lesson at National Gallery	Free time
Saturday	Optional day trip (e.g. Oxford, Greenwich)	
Sunday	Possible transfer to	

The course has been designed to help activate the English you already know and then build on this with new vocabulary. The main area of focus is communication and helping you improve your speaking and listening.

**In 2006 this programme was awarded the British Council prize for innovation in English teaching.**

The learning method is simple and successful and designed to be relaxing and motivating. As sitting in a classroom everyday can be boring for some and frightening for others on this one week course you will do something different every day! The classrooms are replaced by London's museums and galleries. This means that learning is memorable and the experience is unforgettable.

At all times you will have a representative to help with any questions or problems. All you will need are comfortable walking shoes, a notepad and an open mind!
