Our Young Learner programmes at Bell bring English language learning to life. We encourage our students to aim high, exceed their goals and become confident and capable individuals.

Building confidence to communicate in an additional language takes guided support and practice, practice, practice. That's why we focus on developing core English language skills through project-based learning activities

and interactive learning – an effective way to learn language quickly and successfully.

Our programmes are a truly international experience. In 2022, we welcomed 37 nationalities to our centres, giving students the opportunity to make friends and connection all over the world

With expertly designed lessons, activities, and study tours, students will be inspired to reach their full potential. A SPECIAL INTEREST GROUP OF ENGLISH UK

Your Bell programme

Students learn faster and more successfully when they use English all the time and in a range of situations. This is why we offer fully integrated courses with lessons, activities and exciting study tours.

Inspiring lessons and project-based learning

Our lessons are carefully planned to improve students' language skills and build confidence. We focus on developing core English language skills through engaging and relevant weekly project themes, like 'Protecting the Planet'. Students work in groups and use what they have learned to produce a final project such as a short film or presentation.

Educational Activities

At Bell, our educational activities and Academies support what your child has studied in class. Students practise their English while focused on an activity, leading to a natural use of the language.
