Cheltenham is a historic city in the west of England, close to the World Heritage city of Bath and the famous university city of Oxford. Like Bath, Cheltenham became famous as a spa town in the 18th century, its buildings and streets built in the elegant Regency style. There are award-winning gardens; an impressive range of stylish shops and restaurants, and prestigious festivals of horse racing, music and literature.

Dean Close School has a modern campus just outside the city centre, it has a professional theatre and excellent sports facilities – including football pitches, a swimming pool and sports hall. The accommodation is of a very high standard with single and twin rooms. Shared en-suite rooms are available to book in advance at supplement.
