

## LYME REGIS

Library Cottage was built in 1839 and at one time housed a 'Marine Circulating Library'.

Sundial House is an imposing marine residence built in 1903. On the front elevation is an attractive sundial and on the facing wall is an embedded ammonite fossil.

Hallo Sprachenmarkt Team,  
after two weeks it is  
still great. My landlady is  
a very good cook. But  
my teachers are always  
fun. So I had a lovely  
time in the Anglo-  
Continental School.

greetings  
Rita
